

**OPTICAL STORAGE TECHNOLOGY ASSOCIATION
DISCLOSURE REGARDING INTELLECTUAL PROPERTY
IN SPECIFICATIONS**

Optical Storage Technology Association ("OSTA") has adopted the OSTA Intellectual Property Policy (the "Policy"). The Policy is available on OSTA's Web site or upon request to the President of OSTA. Pursuant to the Policy, OSTA will only accept contributions to specifications from Members and Associates of OSTA (who by being a Member or Associate, have agreed to the Policy) and third parties who have agreed in writing to comply with the Policy (collectively "Contributors"). All Contributors are advised to read the Policy before making a contribution to an OSTA specification. The Policy requires a Contributor to provide written assurance at the time the contribution is made to OSTA that, in the event the specification incorporates or is based upon the contribution, the Contributor will, upon request, license upon reasonable and nondiscriminatory terms on a reciprocal basis any and all of its Essential Patent Claims (as defined in the Policy) embodied in or reading on the contribution, solely for purposes of implementing a specification which incorporates the contribution in a product that complies fully with the specification. In addition, the Policy requires that at the time the contribution is made or at any time thereafter, the individual representing the contributor company shall disclose to OSTA any patent rights of the Contributor personally known to the individual which, in the judgment of the Contributor, would constitute an Essential Patent Claim if the contribution were ultimately incorporated into the specification.

The purpose of this form is to provide the necessary disclosures to OSTA. Please complete, sign and deliver this form to the Chairperson of the OSTA Committee or Subcommittee considering the specification.
